

My Life Philosophy

Wishing for Peace

Compared to the history of the Earth our life is insignificant.
Wars and conflicts occur continuously between countries and regions due to differences in religions and ideologies.

Again and again the environment is destroyed and one wonders how the Earth will survive.

The Sun provides light for everything on Earth without making any demands.

I wish that we humans could give unconditional love to all other life on Earth.

My art contains such a wish.

– The sun rises – YOSHIKO NAMIZUKA EXHIBITION
